

**TENNESSEE HISTORY DAY  
WEST DISTRICT  
COMPETITION 2016**

**SPECIAL INSTRUCTIONS FOR DOCUMENTARY CATEGORY**

You must upload the final draft of your documentary by **midnight, Mon., Feb. 1, 2016**. This is the version that will be judged. Stop working on your documentary. Bring a copy to the state contest on a flash drive, DVD, or laptop. Bring four copies of your process paper/annotated bibliography. You may wish to bring speakers.

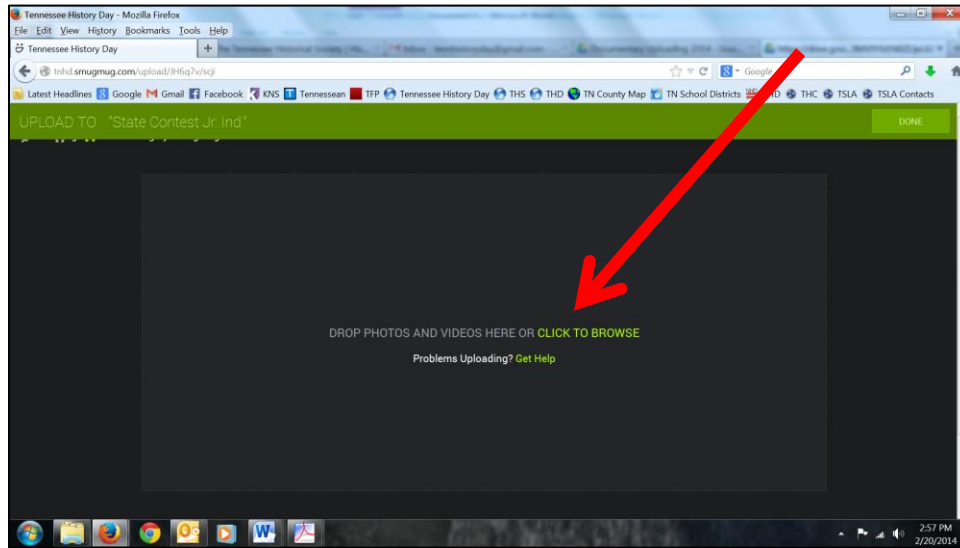

Name your documentary movie file with the exact name of your project that is registered in the History Day registration system. Separate words with underscores ( \_ ) and remove special punctuation ( : , ? , etc.) from the title. For example, a project registered as “The Manhattan Project: Technological Triumph or Human Tragedy?” would be saved as The\_Manhattan\_Project\_Technological\_Triumph\_or\_Human\_Tragedy.

Your file must be saved in the following file format: .mov or .mp4.

Your screen will look like this:

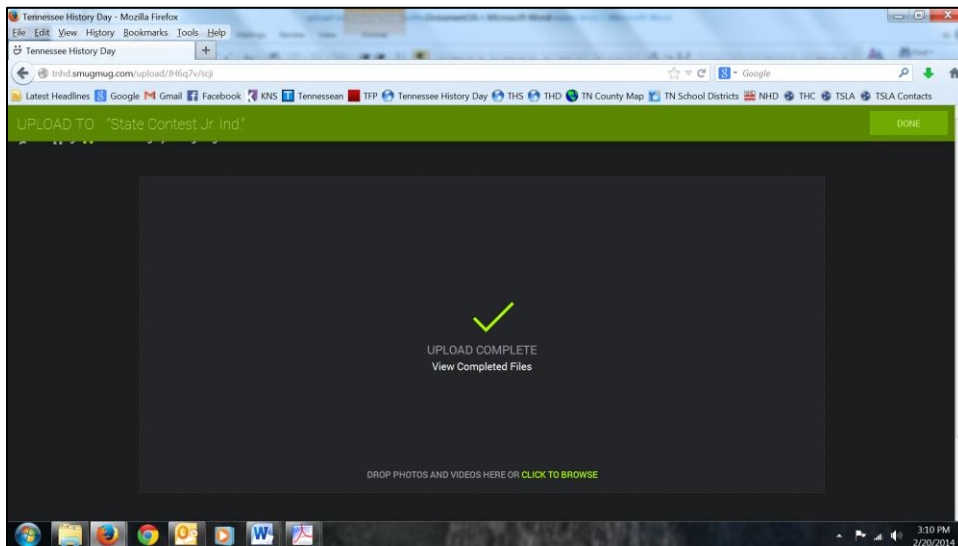

Either drag your documentary into the box as indicated or select the “CLICK TO BROWSE” button.

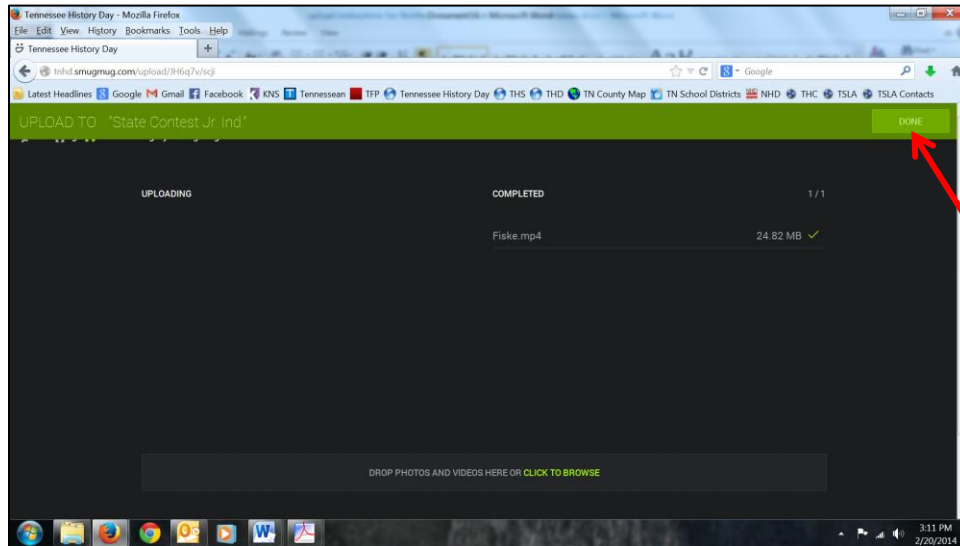

If it is the right file type, a progress bar should indicate that your documentary is uploading correctly. Depending on internet connection, internet speed, and file size, this might take some time.

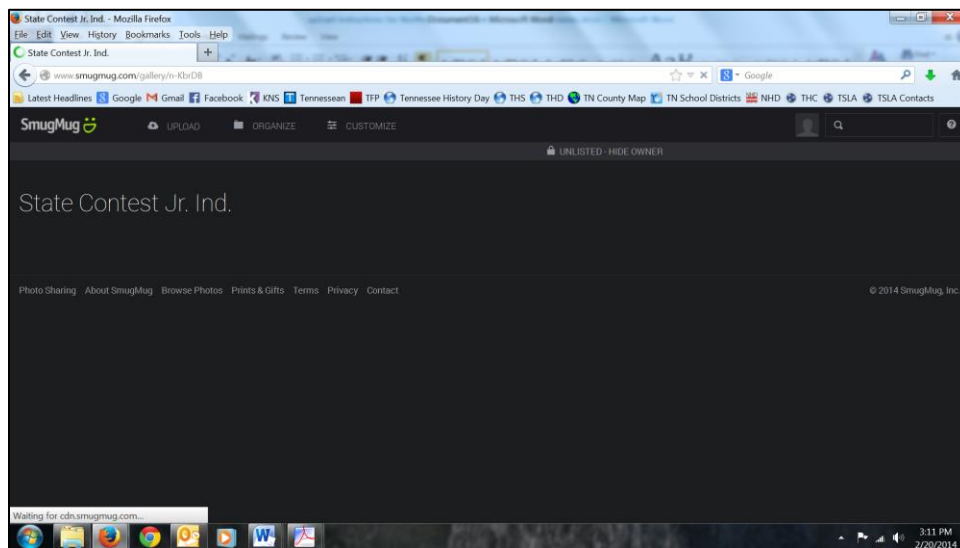

When your documentary is uploaded, you will receive a green check.

You can double-check to see your documentary was successfully uploaded.

Click “DONE” when you are satisfied your documentary is successfully uploaded. You are done! Do not attempt to login to SmugMug. Your NHD password will not work.

If your documentary is taking a very long time to upload, you may want to find a faster internet connection. If your documentary is saved in a format not recognized by SmugMug, it will not upload. Do not wait until the last minute; the server will be very busy and consequently slower.
